

The Industrial Emissions Directive

22nd September 2011

Imperial College, London

Welcome

RSC | Advancing the
Chemical Sciences

Welcome and Introduction

RSC | Advancing the
Chemical Sciences

Housekeeping

- Please display your name badges
- Questions can be taken after each presentation
- Summary and open discussion at end
- Safety Information – Graham Reed

Combustion Engineering Association

- Education – conferences and seminars
 - Representation – legislation, guidance, standards
 - Promotion – use of steam and CHP
 - Specialist Advice - the CEA ‘Community’
-
- Involved in representing industrial boiler operators throughout the LCPD and the IED consultations
 - Position on the Technical Working Group

Coal Research Forum

- Founded 22 years ago
- Aims to bring together those with an interest in coal research for the exchange of information on research topics related to the utilisation of coal
- The Executive Committee includes representatives from industry and academia
- Six Divisions:
 - Combustion
 - Conversion
 - Characterisation
 - Preparation
 - Environment
 - Advanced power generation

Energy Sector of the Royal Society of Chemistry

- The **mission** of the Energy Sector is to provide a forum for members of the Sector, Division, RSC and others to access knowledge and express views on chemical, legislative, educational and other matters relating to energy and to promote the interests, both within the RSC and externally, of the members of the Sector and the Division.
- 627 members
- Belongs to the RSC Environment, Sustainability and Energy Division.
- Energy Sector Committee: Prof Mercedes Maroto-Valer, Honorary Chair

Forthcoming Events

BCURA Coal Science Lecture

3rd October, Institute of Physics

CRF UK Minerals - Engineering Innovation for a Sustainable Future

13th October, Kegworth

CEA Safe Management of Industrial Steam and Hot Water Boilers (PM5) 25th
October, Stratford upon Avon and 7th December, Leeds

CEA Health and Safety in Biomass Systems, Leeds 8th December

The IED
